DRAWER

LINEA

PRODUCT DESCRIPTION

Rocheleau's Linea ultra-thin-walled drawer system is the pinnacle of minimalist design and storage space saving. With a side thickness of only 1.2 mm, it is the thinnest drawer available on the market today. Offered in 3 different heights, it also comes in 2 colors, matte white and anthracite, which fit perfectly with any style of kitchen, bathroom or other room.

ADVANTAGES AND BENEFITS

The Linea drawer can be combined with Rocheleau's S32 slides with integrated dampers or touch-to-open to make it a quality drawer combining robustness and smooth movement. Its 3-dimensional adjustments ensure precise positioning of the facades. The addition of the rear aluminum profile (optional) will give it an even more united and elegant look.

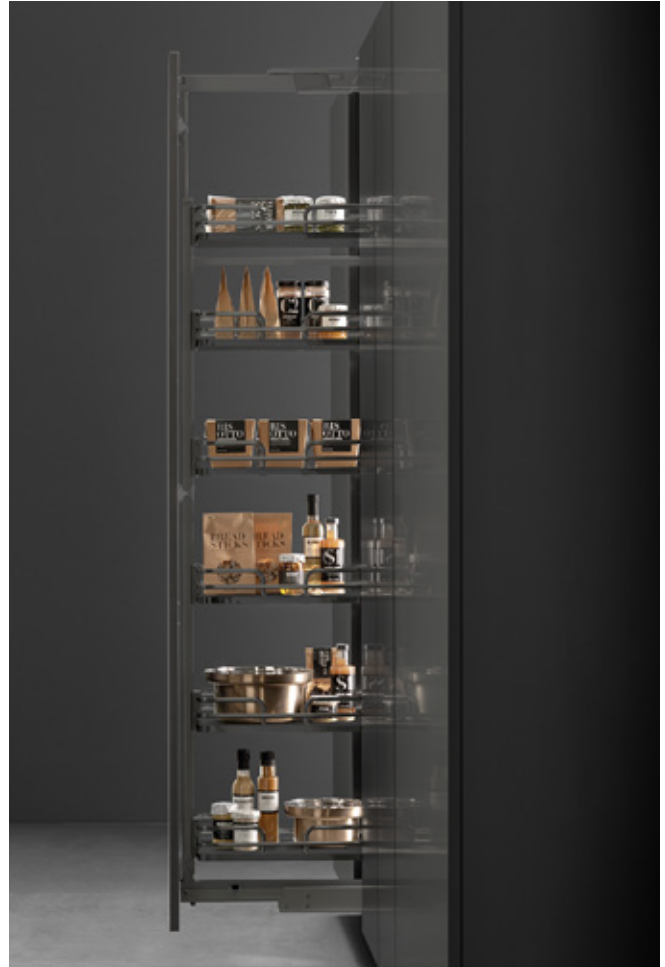

TECHNICAL SPECIFICATIONS

- › 90° straight interior sides
- › Drawer side thickness: 1.2 mm
- › Load capacity with S32 slides: 40 kg (88 lbs)
- › Synchronisation and damper integrated
- › Slides fixing: wood or Euro screws

PULL-OUT LARDER UNIT

FOR BOTTLES

PRODUCT DESCRIPTION

This narrow pull-out larder unit from Vibo presents a great solution for storing bottles of all kinds. No need for a cellar now: this system can accommodate up to 20 bottles, both vertically and horizontally!

ADVANTAGES AND BENEFITS

Its 3 full extension slides with soft closing ensure smooth opening and closing, and the 3-dimensional adjustment allows easy and precise adjustment of the front. The bottles can be stored and taken as easily from the right as from the left.

TECHNICAL SPECIFICATIONS

- › Color: anthracite
- › Installation : left or right
- › Minimum interior width: 107 mm (4-1/4")
- › Minimum interior height: 1700 mm (67")
- › Minimum interior depth: 468 mm (18-1/2")
- › Suggested door width: 150 mm (6")
- › Closing type: soft closing
- › Adjustment: height, width and depth
- › Capacity: 20 bottles

PULL-OUT LARDER UNIT

NARROW

PRODUCT DESCRIPTION

Of Italian design, the Galaxy narrow pull-out larder unit by Vibo is a practical and elegant storage solution. It contains 5 fixed shelves with non-slip bottoms and elliptical rails. It is ideal for storing bottles and other thin containers, and access to the contents is also easy from both sides of the system.

ADVANTAGES AND BENEFITS

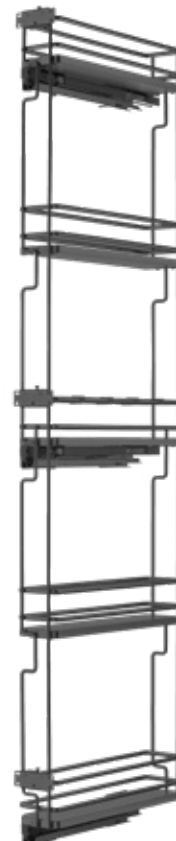

It is mounted on the left side of the cabinet using 3 invisible full extension slides with soft closing. It offers a load capacity of 60 kg (132 lb) and comes with 4 bottle dividers. Its three-dimensional adjustment allows precise positioning of the front to the mechanism.

TECHNICAL SPECIFICATIONS

- › Color: anthracite or white and chrome
- › Installation: left
- › Minimum interior height: 1700 mm (67")
- › Minimum interior width: 107 mm (4-1/4")
- › Minimum interior depth: 468 mm (18-1/2")
- › Suggested door width: 150 mm (6")
- › Closing type: soft close
- › Adjustment: height, width and depth
- › Number of baskets: 5
- › Load capacity: 60 kg (132 lb)

MIRROR PLUS

PRODUCT DESCRIPTION

The Argento Plus mirror panel is made of a 2 mm thick acrylic mirror sheet mounted on an MDF core and completed with a balancing sheet. The perfect flatness of its surface ensures an irreproachable reflection, without any deformation. It is available in 3 different thickness, and with a white or anthracite backing.

ADVANTAGES AND BENEFITS

Several interesting features set it apart from the conventional mirror. Being extremely lightweight, it is much easier to handle and install. Its unbreakable and very resistant surface is perfectly suited to public spaces. Easy to clean, the Argento Plus panel is resistant to water and UV rays, guaranteeing color consistency over time. It does not require special tooling and can be easily cut on a traditional saw bench.

TECHNICAL SPECIFICATIONS

- › Thickness: 8 mm (5/16") / 16 mm (5/8") / 18 mm (3/4")
- › Length: 2800 mm (110 1/4")
- › Width: 1200 mm (47 1/4")
- › Back color: white or anthracite

DRAWER DIVIDER

NICK

PRODUCT DESCRIPTION

What makes Nick so special is the angled bottom of the compartments. The resulting tilted surface perfectly matches the angles and curves of the cutlery, thereby ensuring a snug fit in each compartment and an optimal use of the drawer's inner space.

ADVANTAGES AND BENEFITS

Nick dividers are available in white or anthracite. They harmonize perfectly with any type of decor. Their high-quality composition ensures great durability. They are available in 3 versions: for cutlery, large utensils, and spices.

TECHNICAL SPECIFICATIONS

- › Width:
 - 400 mm (15 3/4") à 650 mm (25 5/8") – large utensils
 - 350 mm (13 3/4") à 1050 mm (41 3/8") – cutlery
 - 550 mm (21 5/8") – 650 mm (25 5/8") - spice
- › Depth: 550 mm (21 5/8")
- › Height: 50 mm (2")

EXTRACTABLE UNIT

BLIND CORNER

PRODUCT DESCRIPTION

This blind corner organizer with 4 pull-out trays helps you optimize storage space. Equipped with non-slip shelves, it is available with soft closing and is also reversible, installing on the left or right side. It possesses a load capacity of 15 kg per shelf.

ADVANTAGES AND BENEFITS

This ingenious system allows easy access to all the space available in your corner cabinet. Sturdy yet elegant, it uses a very smooth sliding mechanism to allow easy access to both sets of baskets using just one door.

TECHNICAL SPECIFICATIONS

- › Anti slip surfaces
- › Minimum door width: 450 mm (17 3/4")
- › System height: 595 mm (23 1/2")
- › System width: 660 mm (26")
- › System depth: 455 mm (17 7/8")
- › Basket load capacity: 15 kg (33 lbs) each
- › Reversible (right or left installation)

EXTRACTABLE SHELVES

SWING CORNER

PRODUCT DESCRIPTION

The shelf extractable system for blind corners is an essential accessory to equip a kitchen and increase the storage space. Its fluid movement makes it possible to extract the shelves from the bottom of the cabinet. It is also equipped with anti slip mats for the shelves and comes with a soft close mechanism.

ADVANTAGES AND BENEFITS

Ideal for storing less often used items, the system's "s" movement allows the shelves to come out almost completely for easy access. The height of the shelves is adjustable, thus optimizing its use and the space available. It is available with rails or aluminum sides, and in right or left version.

TECHNICAL SPECIFICATIONS

- › Integrated dampers
- › Opening: Right or left side
- › Minimum installation depth: 490 mm
- › Minimum installation width: 860 mm
- › Minimum width of the door opening: 420 mm
- › Lateral clearance: 155.5 mm (6 1/8")
- › Load capacity: 15 kg (33 lbs) per shelf
- › Finish: anthracite
- › Individual shelf height adjustment

RETRACTABLE SHELVING UNIT

PRODUCT DESCRIPTION

Tired of climbing on a chair to access the top shelf of your wall cabinet? This retractable shelving mechanism will make your job much easier by allowing you to extract the contents of the cabinet practically effortlessly. It has 2 shelves and comes in 2 different widths.

ADVANTAGES AND BENEFITS

This system, mainly made of aluminum, is very easy to maneuver, thanks among other things to its comfortable handle and its easy-to-use tension adjustment. In addition, its height adjustment allows very easy installation for this type of mechanism.

TECHNICAL SPECIFICATIONS

- › System width: 564 mm (22 1/4") / 764 mm (30 1/8")
- › System depth: 283 mm (11 3/16")
- › System height: 525 mm (20 5/8")
- › Required cabinet width: 600 mm (23 5/8") / 800 mm (31 1/2")
- › Soft opening/closing
- › Capacity: 15 kg (33 lbs)
