

Exedra Gravity

SALICE

Exedra Gravity

This pocket door system elevates both versatility and design, featuring a distinctly modern and clean look.

Versatility

A truly versatile solution, it integrates perfectly into multiple applications.

Functionality

A simple yet reliable mechanism that provides complete door retraction into the compartment.

Installing and uninstalling made simple, requiring only a few easy steps.

Flexibility

Exedra Gravity can be applied to a wide range of doors and supports up to 40 kg.

Design and functionality in perfect harmony

The Exedra Gravity system integrates seamlessly into multiple spaces, complementing a wide range of furniture, from kitchens and home offices to bar cabinets and laundry rooms.

An innovation that is both stylish and effective combining aesthetics and practicality.

Design Flexibility

Exedra Gravity suits all types of furniture and can be applied to a wide range of dimensions:

- Doors height from 1100 mm to 3000 mm
- Doors width from 300 mm to 900 mm
- Doors thickness from 14 mm to 30 mm
- For reduced thicknesses, see page 32 chapter “Accessories”.
- Door weight up to 40 kg

Modular with the Exedra2 system.

Movements developed for maximum ease of use

Two options available:

OUT – Doors open independently from within the cabinet with assisted motion, activated by a light touch.

IN – The doors retract with a smooth, perfectly balanced motion in response to a gentle push.

Exedra Gravity can be supplied with hinges and **Smove**, for a decelerated closing, or **Push** to open hinges for handle-less doors. Both versions are available in **nickel-plated** or **titanium** finishes.

Configure your system's movement with our **online configurator**.

A seamless and intuitive mechanism

The door fully retracts into the compartment when open, ensuring practicality and discreetness.

Each movement is assisted, resulting in a precise and harmonious sliding action.

Accurately calculate door retraction with our **online configurator**.

Simple, reliable, practical

The concealed sliding mechanism, contained within a 55mm housing, allows for easy adjustment and access without disassembling the cabinet.

It attaches directly to the cabinet side in just a few simple steps.

Exedra Gravity's innovative technology operates without the need for cables, tie rods, or springs.

Fluid and smooth motion assisted by magnetic dampers designed to control the speed.

Our online configurator allows better customisation for every version of the system.

A simple and intuitive purchasing process

Online configurator supports every phase, from design to installation, with detailed instructions and video tutorials.

Supplied in Kit form, ready for delivery, with minimal adjustments before assembly.

Customised supply available for immediate and easy installation.

Exedra Gravity

- 1 Exedra Gravity OUT:** automatic door extraction movement with counterweight.
- 1a Exedra Gravity IN:** automatic door insertion movement with counterweight.
- 2** Magnetic buffer for soft insertion.
- 3** Load-bearing door profile.

- 4** Sliding carriage profiles.
- 5** Quick coupling hinges.
- 6** All door adjustments are accessible from the front of the cabinet.

Exedra Gravity

Kit versions to be assembled

Exedra Gravity IN • Kit versions to be assembled

This solution offers a great deal of flexibility to the customer. The customer cuts the profile sections to their desired length and fixes together its individual components. For cutting and assembly operations, please refer to the online configurator. The locating clips and positioning stops ensure a fast and secure assembly.

Exedra Gravity can be supplied with hinges and **Smove**, for a decelerated closing, or **Push** to open hinges for handle-less doors. Both versions are available in **nickel-plated** or **titanium** finishes.

Exedra Gravity

Customised version

Exedra Gravity • Customised

Fully assembled solution according to customer requirements.

The Exedra Gravity system is produced according to the dimensional specifications provided by the customer.

The customer only has to assemble the system on the cabinet with the provided drilling patterns.

The locating clips and positioning stops ensure a fast and secure assembly and removal from the cabinet.

How to order a customised Exedra Gravity system

To order a customised Exedra Gravity system, go to the Salice web configurator: www.configurator.salice.com.

To purchase your configured system, please contact your local Salice dealer.
